

## TINY TASK 2

# PHOTO SAFARI

**What is your overall feeling of the place after this tiny task?**

**Hi!** This week we have a tiny task again for you to prepare you for the Design Event. Your tiny task is to go to a public space you are not too familiar with, and to use all your senses and sensitivities to explore how you feel in that space.

When something strikes you in particular, take a picture of it, and take a note on how you felt. For example:

- you smell the scent of a particular soap and it made you feel at home.
- you see somebody smiling at you and you feel special
- you see somebody wrote something funny on a statue, you feel angry and amused at the same time
- you feel you lack personal space, people are too close to you, it's too crowded
- etc....

### **Take as much pictures as you want!**

It will be difficult to take pictures of some situations (how do you picture smell? Touch?) so be creative about it.
