

TINY TASK 3

INTERVIEW

Hi! This week your tiny task is to interview a stranger (e.g. a local shop owner, a commuter, an adult or a kid, a student, tourist...) about a positive encounter in a public space.

Here an example:

Hi, my name is xxx, I am ... (something about your background, that you are a student or that you come from ...). Can I ask you something? I am looking for stories of people feeling welcomed/appreciated in a public space. Can you share an anecdote (little story) with me?

- *In which situation here in this ... (shopping mall, city center, park, school yard ... something else, you can choose) ... you felt appreciated?*
- *What happened that made you feel this way? (after the short or maybe longer talk)*
- *Thank you very much for sharing your experience!*

In the result you mention:

1. The place (where you went for the interview)
2. The person (who it was that you interviewed)
3. The anecdote (the story that your interviewee shared with you)
4. What surprised you in this story?

**Please, bring a print (max. 1 A4)
of the result of your Tiny Task to
the Design Event.**
